

# TO MOVE CHANNELS ON SATMAX PLUS RECIVIER V1

1:

Press Menu Button on Remote Control

Using arrow buttons , Highlight (2) Edit Channels

Press OK button on remote

You should have the following Screen

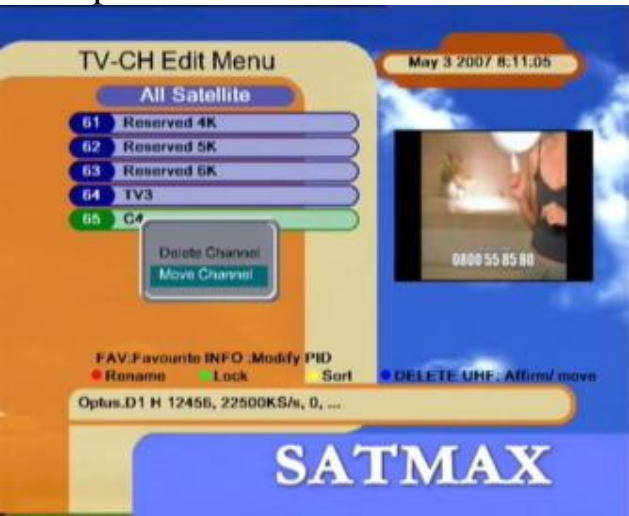

Press OK while highlighting (1) Edit TV Channels

Then you should have the following screen...

Now press the **BLUE** Button on remote  
And highlight the Move Channel option  
Then press OK

Now move the highlight bar over each channel you wish to move  
And press OK this will put little Up/Down Marks beside the channel

(as per circled picture below)

Now move Highlight bar to where you want to place the channels,  
Once in the right place then press UHF button , and the channels will move into place.

Press Exit a couple of times to finish.

TIP: you can use the same process to DELETE old channels just select DELETE after pressing the BLUE button on the earlier step.
